OBJECTIVE

Motivated software developer seeking a Co-op Internship to apply front-end and back-end development skills in a collaborative environment. Passionate about React.js, C#, and building user-centric applications.

PROJECTS

Montreal Event Platform (2024 – Present)

- Community-based social web app for sharing and discovering local events.
- Developed using React.js, Node.js, and SQL with secure user authentication.
- Implemented features for posting, commenting, and user profiles.

Tutorial Overlay App (started the idea)

- Created an iOS app with Swift to guide users through interactive overlays.
- Designed smooth user experience with multi-step onboarding UI.

EXPERIENCE

Food Service Assistant | Tommy Cafe, Montreal | Sep 2024 – Present

- Prepared food and maintained quality standards in a busy setting.
- Collaborated with staff and managed multiple tasks under pressure.

Food Service Assistant | Subway, Montreal | Dec 2023 – Present

- Provided excellent customer service and supported team operations.
- Assisted in training new hires and managing peak hours.
